Dr. King joined Incyte Diagnostics in 2008 and is board certified in anatomic and clinical pathology. He has subspecialty interests in podiatric pathology, gastrointestinal pathology and dermatopathology.

Dr. King obtained his Doctor of Medicine degree from De La Salle University, Emilio Aguinaldo College of Medicine in Manila, Philippines, and completed his pathology residency at The Mount Sinai Hospital in New York, NY.

Following his residency, he completed a fellowship in surgical pathology at Mount Sinai Hospital and a dermatopathology fellowship at Thomas Jefferson University in Philadelphia, PA.

Dr. King was an adjunct laboratory instructor at the New York College of Podiatric Medicine in New York, NY. He also presented pathology laboratory lectures on microscopic and gross pathology to students of the The Mount Sinai School of Medicine and the City University of New York College of Medicine in New York City, NY.

Dr. King has experience serving as a consulting pathologist for The Cancer Genome Atlas (TCGA) Project at the Molecular Profiling Institute in Phoenix, AZ.

Prior to joining Incyte Diagnostics, Dr. King was the medical director for Ameripath Arizona in Phoenix, AZ; Valley View Medical Center Laboratory in Fort Mohave, AZ; Tanana Valley Clinic Laboratory in Fairbanks, AK and the St. Luke's Hospital Laboratory in Allentown, PA.

During his past tenures as a medical director, Dr. King has served as an infection

control and transfusion committee chairman, as well as a member of the institutional review board, medical executive committee and board of governors.

He participates in several professional society memberships including the Washington State Medical Association and the Spokane County Medical Society.

PRESENTATIONS

- "Increased Detection of Perineural Invasion of Prostate Cancer By S100 Immunostains on Biopsy Tissues". Western Section American Urological Association, Annual Meeting, Maui, HI. October 2006.
- "Outcome of Patients with Hemochromatosis Following Liver Transplantation and Assessment of Iron Reaccumulation". Annual Meetings of the American Gastroenterological Association and American Association for the study of liver diseases, San Francisco, CA. November 1996.
- "Prognostic Factors in Cardiopulmonary Resuscitation". St. Luke's Medical Center, Manila, Philippines. May 1989.
