Dr. Tan has been a staff pathologist at Incyte Diagnostics since 2004. He is board certified in cytopathology, anatomic and clinical pathology.

After graduating from Washington University in St. Louis, MO, Dr. Tan completed his medical degree from the Indiana University School of Medicine in Indianapolis, IN.

Dr. Tan was a resident at the University of Michigan Hospitals in Ann Arbor, MI.

Following his residency, Dr. Tan completed fellowships in surgical pathology and cytopathology at the University of Michigan Hospitals in Ann Arbor, MI.

Dr. Tan has been an active member of the American Society for Clinical Pathology, United States and Canadian Academy of Pathology, College of American Pathologists, Washington State Medical Association, Washington State Society of Pathologists and Pacific Northwest Society of Pathologists.

Previously, Dr. Tan served as the Interim medical director at Evergreen Hospital Medical Center in Kirkland, WA in 2011. Dr. Tan has also served as the director of anatomic pathology at the Overlake Hospital Medical Center in Bellevue, WA, and as the Overlake Internal Medicine Associates gastroenterology histology laboratory medical director.

Dr. Tan has been an active participant in the Puget Sound medical community and is currently licensed in the states of Washington and Michigan.

PRESENTATIONS

- "E-cadherin, Gross Cystic Disease Fluid Protein-15 (GCDFP-15) and High Molecular Weight Cytokeratin (CK-34B12) Expression in in-situ Carcinomas of the Breast". American Society of Clinical Pathologists, San Diego, California. October 2000.
- "Detection of Telomerase Catalytic Component (hTERT) in Invasive and in situ Lobular Carcinomas of the Breast". United States and Canadian Academy of Pathology, Atlanta, Georgia. March 2001.
- "HER2/NEU Overexpression does not Predict Axillary Lymph Node Metastases in Invasive Lobular Carcinoma of the Breast". United States and Canadian Academy of Pathology, Atlanta, Georgia. March 2001.
